This guide has been written to supply general information only and is not intended to be applied without due consideration of the particular situation of the individuals involved. The primary goal of this guide is to provide professional service providers with the necessary tools to recognize the signs of elder abuse and to be able to decide whether further action is required. The Seniors Resource Centre of Newfoundland and Labrador and its partners do not take responsibility for the improper or inappropriate use of this guide and the information contained therein.

Please Note: As information evolves over time, the Seniors Resource Centre of Newfoundland and Labrador will strive to keep this guide updated in hard copy at its St. John's office and on its websites at www.seniorsresource.ca and www.nlnpea.ca (the website of its NL Network for the Prevention of Elder Abuse)
